Statement

I believe I would be a strong candidate for the Committee given my passion for Green issues alongside my skills and experience in supporting projects, campaigns, and organisations. I have found a supportive community with the Edinburgh Greens and want to contribute to its operations and bring in others who care deeply about Green issues.

I became involved with the Greens initially by supporting Kate Nevens's campaign last December. This experience solidified my need to support just and inclusive policy development, especially in areas of:

- Promoting disarmament and ending the arms trade

- Promoting and supporting sustainable policies
- Protecting Edinburgh's most vulnerable people
- Supporting an independent Scotland

Scotland will be stronger without relying on income from the brutal arms trade and harmful, unsustainable energy. As a British Yemeni who is frustrated and disturbed by the UK diplomatic and financial support for the war, I want to support ending the arms trade through developing peaceful alternatives with the Greens.

Currently, I work as a Project Assistant where I support project operations in ways such as:

- Coordinating events and meetings for colleagues across the project
- Taking and distributing detailed and accurate minutes
- Managing the project's SharePoint and the website
- Liaising with colleagues and external stakeholders

These are technical skills I would bring to the Committee to support its operations and would be grateful given the opportunity to partake.

Role preference

First preference	Policy and Campaigns Officer
role:	
Second preference	Secretary
role:	
Third preference	Accessibility and Inclusion Officer
role:	
Fourth preference	Vice Convener
role:	
Fifth preference	Ordinary Member
