## Statement

I've been involved in Edinburgh Greens print and web communications for some time:

- designing and managing the production of Green News
- designing, building and editing the branch website
- designing occasional leaflets
- helping to set up the media library

I also managed the change from [edinburghgreens.org.uk](http://edinburghgreens.org.uk) to [scottishgreens.org.uk](http://scottishgreens.org.uk) email accounts, and set up the current password management system.

Although I've not worked on Edinburgh Greens e-newsletter before, I have some experience of setting up and producing e-newsletters in my day job.

I'd like to join the committee this year with a view to doing some comms development work particularly on the website, Green News and developing the comms volunteer base.
