

Committee Nomination

Proposer: Boyan Karabaliev (bka237542)

Title: Boyan Karabaliev

Why would you like to be elected to the role(s) you are standing for?

Building an active party membership is key to our future success and I'm very keen to contribute to this process. Personally, I am very focused on local politics, and since the general election will pass soon, we will have two years before the next one: an excellent opportunity to build up our presence in Edinburgh. Many people in our city care about green issues, and my goal is to reach them - currently inactive party members and non-members all the same. We will keep working towards this through events and local campaigns on green issues: social justice, environment, active travel, public transport, greenspaces, grassroots democracy, and so on. It will be a pleasure to join the committee again this year.

What skills and experience would you bring to the role(s) you are standing for?

I've been a member of the party for almost 3 years and I've been an active member of the branch committee (as part of the campaigns group), and in by local sub-branch, in this last year. I also have campaigning experience from the last local elections.

Before that, I was active in the IWGB union, helping organize gig workers in Edinburgh. I also gained a lot of experience in organising events/engaging members at the Ocean Advocates at Edinburgh Uni. As their Secretary for two years, I helped organise more than 30 in-person and online events of different types (academic, campaigning, fundraising, social, and others).
