

Committee Nomination

Proposer: Robert Keim

Title: Bob Keim (he/him)

Why would you like to be elected to the role(s) you are standing for?

I'm comfortably retired, so I am privileged to have time that I can put towards what I believe in. I'm reasonably fit and currently healthy, so I can often find energy to do things I care about. I'm quite old, so the roles that I consider most suitable for me are to be supportive of those who will be carrying on long into your planetary future. Being an Ordinary Member of the working group supporting sub-branches and members is, in my opinion, a very good fit.

What skills, knowledge and life experience would you bring to the role(s) you are standing for?

I am excited by the challenges and opportunities that are before us in the SGP. I have been political involved for many decades; I'm happy to still be learning about building the progressive movement. While in the Edinburgh Branch, I've had the privilege to be involved at levels of a local team, a sub-branch, working groups, the branch committee, the National Council and the Standing Orders Committee. Despite this or because of this, I relish sharing my energy and your energies in making real, positive change.

Role preference

First preference Ordinary member of Sub-branch and Member W G
role:
Second preference Ordinary member of events & engagement W G
role:
